

Westonka Horticultural Society Garden Gab Session:

A Journey to Spring

Saturday, January 9th, 2010

Gillespie Center, 2590 Commerce Blvd., Mound

9:30-11:00 a.m. / Free and open to the public.

There is no better way to spend a cold January morning than viewing gardens in full bloom... while you enjoy a hot drink and chat with fellow plant lovers. Join us for a slide presentation given by Dr. Harold Pellett, Executive Director of the Landscape Plant Development Center. View beautiful selections from his travels to the Denver Botanic Garden and the Betty Ford Alpine Garden in Colorado.

Dr. Pellett served as a professor of Horticultural Science for over 36 years at the University of Minnesota. His plant research and breeding at the U of M produced over 25 shrub and tree varieties and earned him numerous awards for his contributions to the field of landscape horticulture. He is also a board member of the Westonka Horticultural Society and the Gillespie Center.

Betty Ford Alpine Garden in Colorado. A botanic garden curating a collection of high elevation plants. The world's highest botanic garden at 8,200 ft.

Denver Botanic Garden offers inspiration and education. Their conservation programs save species and protect natural habitats for future generations.
